

Project Management

Drive rapid and continuous improvement

Why Project Management?

- > Aligns continuous improvement initiatives with strategic objectives and key performance metrics
- > Simplifies the set-up and management of your most complex projects and captures their full value
- > Captures employee commitments and roles, by project, to support effective resource planning
- > Provides access to comprehensive reports so you can quickly spot gaps, take action and complete important projects
- > Improves collaboration and best practice sharing, within your location or across multiple sites

Link Your Continuous Improvement Process to Strategic Objectives and Deliver Improved Business Results.

The Dploy Solutions project management web-based capabilities facilitates the process of managing your continuous improvement activities. Get better connectivity between your strategic objectives and KPIs by using this high-level project management tool to understand who's responsible, critical actions, and progress towards important initiatives. Improve visibility and process rigor in support of your continuous improvement efforts.

The project management capabilities of Dploy Solutions integrate seamlessly with the strategy deployment and KPI management tools within the Dploy Solutions suite.

Nearly 50% of executives say their continuous improvement initiatives fail to meet objective.*

Manage Your Continuous Improvement Results to Drive Strategic Business Objectives

Project Management Gives You the Tools to Connect Execution with Strategy

Manual spreadsheets make it challenging to get an accurate picture of multiple projects' status and their impact on your organization's strategic goals. The project management capabilities provides you with web-based tools that help you effectively manage projects, achieve alignment and deliver on your strategic and operational objectives.

Project Details Screen

Effectively manage continuous improvement initiatives to achieve strategic goals.

Setup and manage all of your projects in one place. Establish team metrics and align projects to strategic objectives and key performance metrics.

X-Matrix Screen in Dploy Solutions Strategy Deployment tool

Owner Management Screen

Proactively assess status and take action.

With just one screen, see a summary of all the projects you own or sponsor. Quickly scan the 'Owner Management Statistics' graphic for at-risk categories, then drill down to pinpoint items requiring corrective action to keep the project on track.

Manage Your Continuous Improvement Results to Drive Strategic Business Objectives

Does your organization have a reliable way to demonstrate results from continuous improvement efforts? Dploy Solutions reporting portal provides real-time analytics and increased visibility to all your projects to help you make informed decisions faster – and with greater confidence. You'll be able to quickly see where corrective actions are needed, and you'll also have easy access to resource reports for measuring employee engagement and commitments.

24/7, Fingertip Access to Your Entire Organization

Dploy Project Management is a fully hosted, web-based, real-time solution. It puts everyone on the same platform, across multiple sites, across companies, across the globe. Updates are instant and control is immediate, 24 hours a day, 365 days a year.

State of the Art Security

We believe that security is more than passwords and firewalls. We take a comprehensive approach to the many components that secure your assets – your data, the application and the hardware housing. Our hosting solution offers better security that you can achieve internally, including complete network security with full firewall protection. Equally important, we are positioned to support clients with immediate scalability and guaranteed uptime.

Our focus

Improving business performance, and helping you translate it into sustainable sales and earnings growth.

Dploy Solutions is a suite of technology solutions offered by Kanrix Systems who brings 25+ years of experience with Operational Excellence and a proven track record building management systems that drive sustainable business performance. We offer implementation and consulting services to ensure a wide range of integration support, including management system design and implementation, data integration, setup and tracking hierarchy. Our goal is to provide the best customer experience possible. Learn more about Kanrix Systems at kanrix.com.
